What Sets It Apart?

Base Building

Players build their own village using the resources gained from Climbing Tower or attacking other players.

Tower Climbing

Climb the tower which is also the leaderboard. Tower contains different monsters and Bosses.

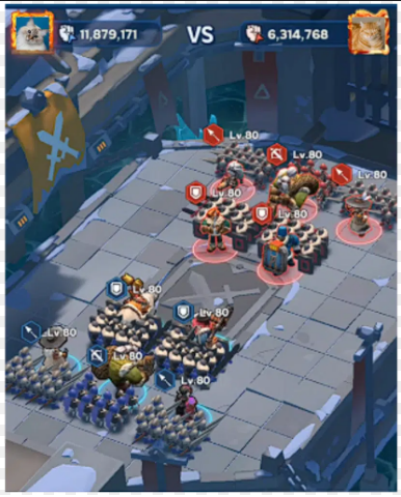

Guilds

Create Guild with fellow players and compete in Guild Wars for resources and additional rewards.

Core Gameplay Loop:

1. **Base and Tower :**
Main objective is to **Build a Base** and train troops to challenge **The Tower** and rise in leaderboard.
2. **Combat & Card Collection:**
Defeat enemies in real-time using strategy-driven deck-building.
Collect new heroes through various rewards and increase their level to battle monsters.
3. **Progression & Choices:**
Progress in the leaderboard, and make choices of spending valuable resources on troops or base building.
4. **Boss Fights & Upgrades:**
Survive increasingly difficult levels to unlock rare cards and upgrades.

Dynamic Deck Evolution:  Cards are HEROS and level up evolve into stronger variations based on playstyle.	Real-time Combat:  Unlike turn-based deck builders, battles unfold in fast-paced, real-time skirmishes.   Stop doing these mistakes ...	Social Integration:  Players can invade bases created by other players and farm resources.
